

Discord Setup Guide

Discord is the App we use to stream the radio feed and can be used to voice chat. For those that don't have a microphone you can also use the text chat.

- Download the Discord App
Windows: <https://discordapp.com/api/download?platform=win>
Mac: <https://discordapp.com/api/download?platform=osx>
Android: <https://play.google.com/store/apps/details?id=com.discord>
iphone/ipad: <https://itunes.apple.com/us/app/discord-chat-for-games/id985746746>
- Open the App and click to Register a new account

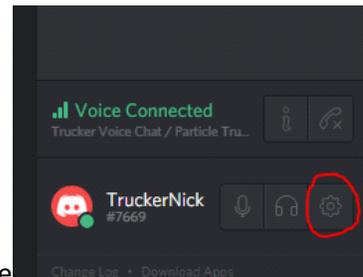

- Enter an email address, username and password

- Click this link to join the Particle Tucker server
<https://discord.gg/7y2KaAg>
- When you first join you will only have limited permission. Send someone at headquarters a message to be given full permission.

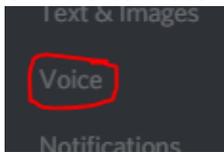

If all you are going to do is listen to the radio stream and text chat then you can stop here. If you want to talk with a microphone then follow these steps to setup your microphone.

Setup Microphone

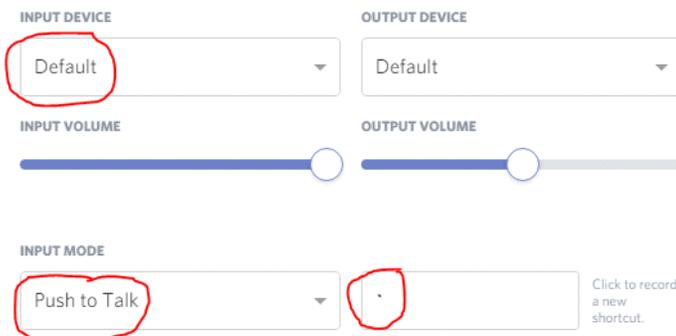

- Click the Settings button in the lower left corner next to your name

- Click Voice in the menu on the left

- Under Input Device select your microphone. If you're not sure you can try leaving it at Default For Input Mode set to "Push to Talk"
Click the in the box to the right of Push To Talk. Push a key on your keyboard that you will use to activate you microphone when you want to talk. In the example below I used the ` key.

- Click Done
